

ALPHA CHOICE INNOVATIVE ACADEMY

(International Secondary School)

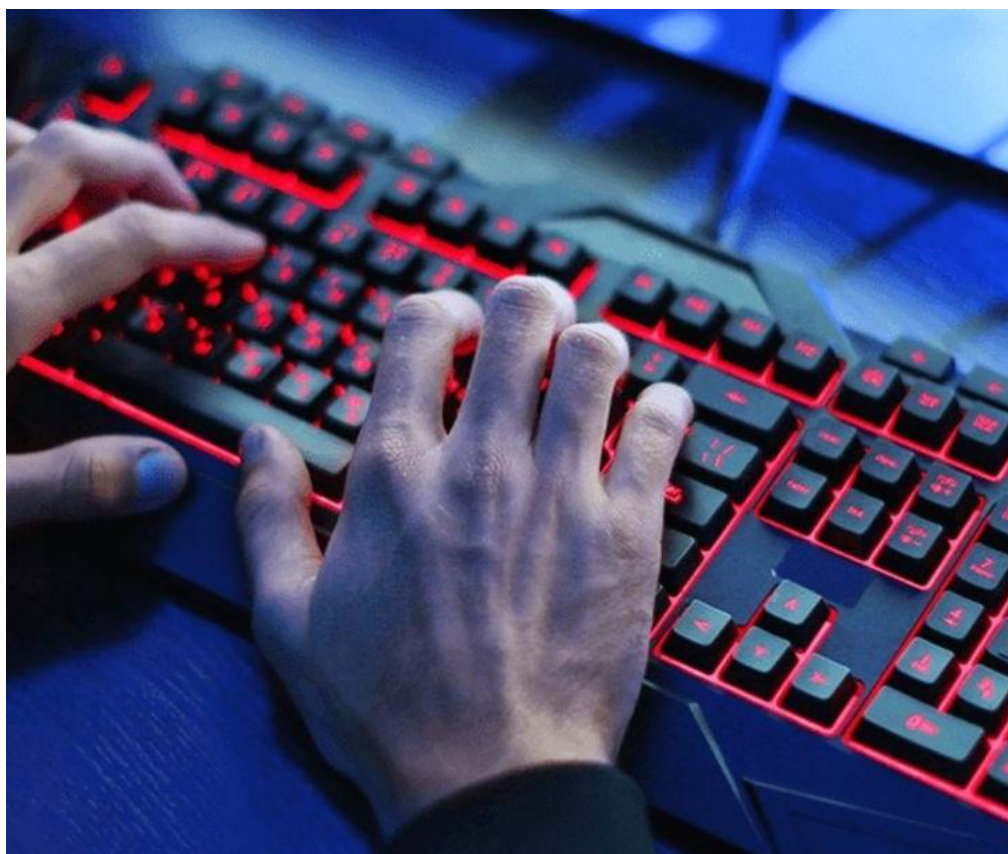

4/6 Richard Okoroike Close, Praise Hill Estate, Arepo, Ogun State.

GRADE 8

THIRD TERM

BUSINESS STUDIES

MASTERNOTE

NAME: _____

Synopsis

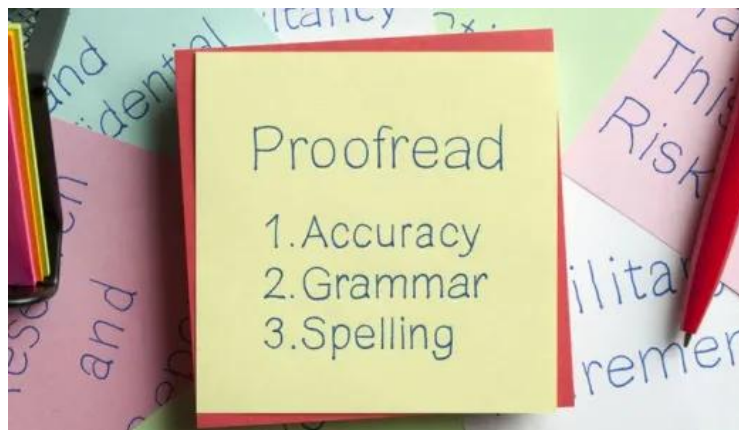

- Printer's correction signs
- Speed development and accuracy skills
- Technique development in keyboarding
- Paragraphing
- Page setting
- Memorandum
- Email
- Office procedure
- Office equipment

Objective: *This week, I will learn*

- *Meaning of correction signs*
- *identify proofreader's signs; and*
- *demonstrate the use of proofreaders' signs*

What are Correction Signs?

Correction signs are signs that are made by editors and typesetters to mark corrections before a work goes for printing.

Correction signs or marks can also be called proof reader's marks are used when amendments have to be made in typewritten or handwritten work of which fair copy is to be typed. These marks indicate problems in the text and suggest solutions.

Correction marks come in two ways;

1. Abbreviations
2. Abstract symbols

Proof Reading

This is the process whereby a good typist checks and carefully read the document typed to ensure its error free.

S/N	Correction sign	Meaning
1	Itals	Change the selected text to italics.
2	rom	Change the italic to roman/vertical type.
3	Caps, u.c.	Change the selected text to capital letters.
4	l.c.	Change the letter to lower case.
5	Trs (transpose)	Change the position of text.
6	Stet	Let the original text remain.
7	Run on	Do not start a new paragraph.
8	#	Give a space between two words.
9	Del	Delete the text or word.
10	λ	Add another word or letter at the point you have identified.
11	.N.P	Begin a fresh paragraph at the point you have identified.
12	Close up	Close up the word, e.g. Thro ough to make it- through.
13	Sp- CAPS	Spaced capitals, e.g. A N I M A L; to type the word separating the letters using two spaces each.
14	→	Indent a paragraph.

		Insert comma.
<i>l.c.</i>	Schoøl	Lower case letter(s) required.
		Move to left.
		Move to right.
N.P.	Starting	New paragraph.
		Insert quotation marks.
		Carry on - no new paragraph.

OPERATIONAL SIGNS

	Delete
	Close up; delete space
	Delete and close up (use only when deleting letters <i>within</i> a word)
	Let it stand
	Insert space
	Make space between words equal; make space between lines equal
	Insert hair space
	Letterspace
	Begin new paragraph
	Indent type one em from left or right
	Move right
	Move left
	Center
	Move up
	Move down
	Flush left
	Flush right
	Straighten type; align horizontally
	Align vertically
	Transpose
	Spell out

TYPOGRAPHICAL SIGNS

	Set in italic type
	Set in roman type
	Set in boldface type
	Set in lowercase
	Set in capital letters
	Set in small capitals
	Wrong font; set in correct type
	Check type image; remove blemish
	Insert here or make superscript
	Insert here or make subscript

PUNCTUATION MARKS

	Insert comma
	Insert apostrophe or single quotation mark
	Insert quotation marks
	Insert period
	Insert question mark
	Insert semicolon
	Insert colon
	Insert hyphen
	Insert em dash
	Insert en dash
	Insert parentheses

ACTIVITY:

1. # means ____ (a) space (b) hash (c) delete (d) number
2. 'Run on' means ____ (a) A new paragraph is needed (b) no new paragraph (c) run over (d) keep running
3. One of these is odd (a) N.P. (b) del (c) → | (d) sp
4. One of these means to change the position of text (a) N.P. (b) # (c) trs (d) sp
5. Correction signs can come in ____ ways (a) 3 (b) 4 (c) 5 (d) 2
6. Describe correction signs
7. State the ways errors can be corrected
8. Write out the sign that means type in 'Spaced capitals'
9. Write out the sign that means type in 'Let the original text remain'
10. 'λ' is what form of correction sign?

CASE STUDY

Daniel is a junior typist at a local publishing firm. He recently typed a manuscript that was handed over to the editor for review. When the manuscript came back, it was covered in symbols and abbreviations like "l.c.", "Trs", "λ", and "Del". Daniel was confused because he didn't know what these correction signs meant.

His supervisor explained that these were proofreader's marks used to indicate corrections before printing. He was also told that proofreading is a key part of the typing process, ensuring that all documents are error-free and professionally formatted.

Questions:

1. What is proofreading and why is it important before printing a document?
2. Daniel saw the correction sign "Trs" on two lines of text. What does this correction sign mean?
3. If the editor wants Daniel to add a word at a certain point, which correction sign should he look for?
4. What does the correction sign "Stet" instruct Daniel to do?

5. If the editor wants Daniel to capitalize the word “office”, what correction sign or abbreviation would be used?
6. Daniel saw this symbol “#” between two words. What does it mean and how should he correct it?

ASSIGNMENT:

Complete the table below

S/N	Correction Sign	Meaning
1	u.c.	
2	-----	
3	_____	
4	//	
5	centre	
6	Bold	
7	○	
8	⌋	
9	⌈	
10	/	

WEEK 2

SPEED DEVELOPMENT AND ACCURACY SKILLS

Objective: *This week I will be able to:*

- *keyboard faster by practicing alphabetic sentence drills*
- *demonstrate improved keyboarding techniques by typing one-line sentence drills accurately.*
- *build up accuracy and speed*

Speed development is trying to hit your top speed. This is aimed at improving your acceleration, maximal velocity and speed-endurance.

Speed is the ability to type the words fast while **accuracy** is the ability to type the words accurately.

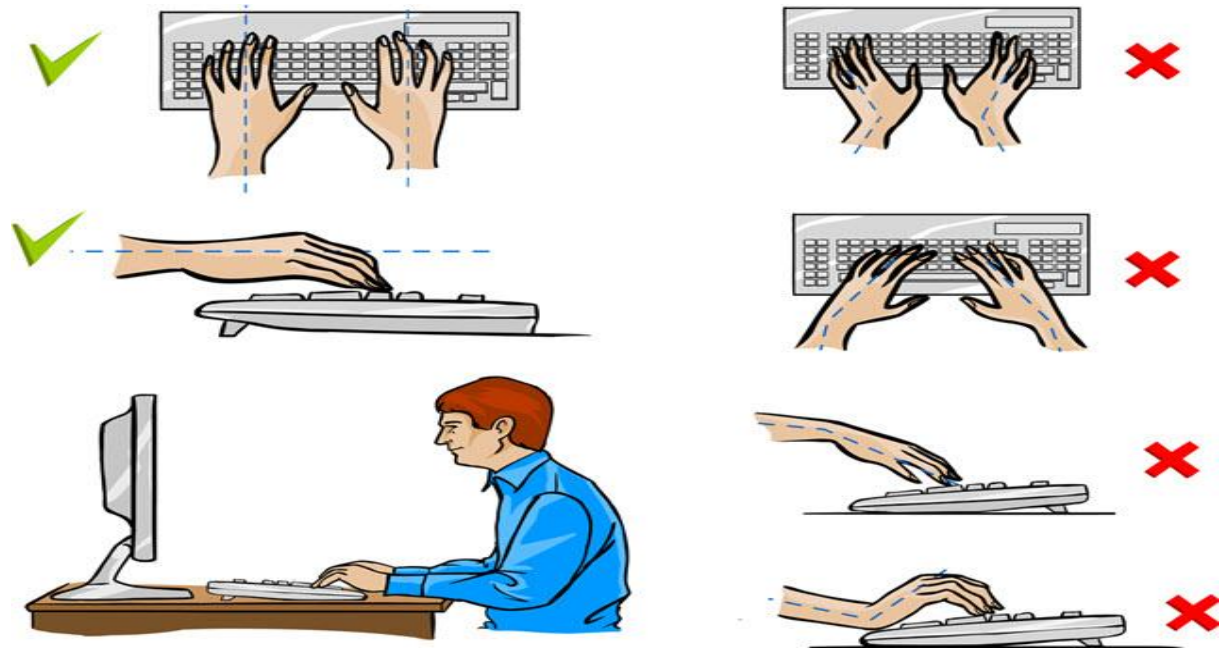

Effectiveness on the keyboard

Effectiveness on the keyboard can be measured in the following ways;

1. Speed: refers to the number of words you can type each minute.
2. Ability to manipulate the keyboard using the correct techniques

How to improve typing speed and accuracy

- I. Find a keyboard that you love
- II. Stop pounding the keys
- III. Learn home row key positioning and practise with it.
- IV. Do keyboard kinetic daily.

ACTIVITY:

Exercise 1: Alphabetical sentence drill

Keyboard the following, using double line spacing

1. Business studies is one subject that can make a very big difference in your life. Nowadays, many people leave school and start something for themselves rather than work for someone else. The zeal to take risks comes from the knowledge acquired in business studies and the skills which must have been practiced often. By the way, this alphabet drill is meant to equip me for the future. I want to give myself the extra jump in life.

QUESTIONS

1. Ability to type fast is called ____ (a) typing (b) speed (c) typability (d) velocity
2. Ability to type accurately is called ____ (a) accuracy (b) acured (c) alertness (d) accrued
3. Which one is odd (a) Find a keyboard you love (b) Do keyboard kinetic (c) pound the keys (d) None
4. ____ helps effectiveness of the keyboard (a) Keyboard nature (b) Manipulation of the keyboard (c) Keyboard body (d) Keyboard store
5. ____ is trying to hit one's top speed (a) Speed limit (b) Speed development (c) Speed height (d) Speed top
6. State two ways keyboarding effectiveness can be measured
7. Describe speed development
8. Give two reasons for developing speed
9. What is speed?
10. What is accuracy?

CASE STUDY

Ngozi is a student taking a keyboarding class. Her teacher gave her a typing assignment and asked her to submit it within 10 minutes. While typing, Ngozi focused more on being fast but made several spelling and punctuation mistakes. When the teacher graded her work, she was told she needed to work on both her speed and accuracy.

The teacher advised her to practice with the home row keys, avoid pounding the keyboard, and to spend time each day doing keyboard kinetics to improve her typing performance.

Questions:

1. What is the difference between speed and accuracy in keyboarding?
2. Mention two ways Ngozi can improve her typing speed and accuracy.
3. What does it mean to use the correct keyboard techniques when typing?
4. Why should Ngozi avoid pounding the keys while typing?
5. How can keyboard kinetics help someone become a better typist?

ASSIGNMENT:

State two benefits of learning how to type fast and accurately.

WEEK 3 TECHNIQUES DEVELOPMENT IN KEYBOARDING

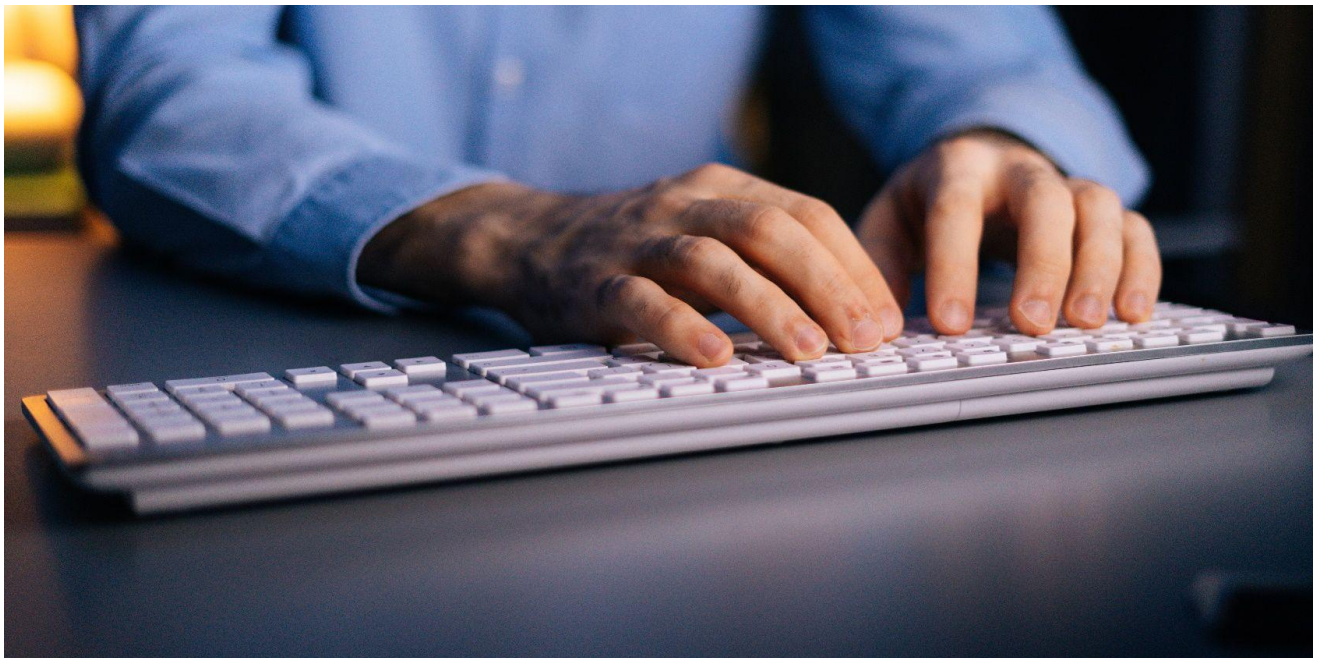

This week I will be able to

1. demonstrate the use of insert table function
2. types of line-spacing
3. enter key and its uses

Introduction

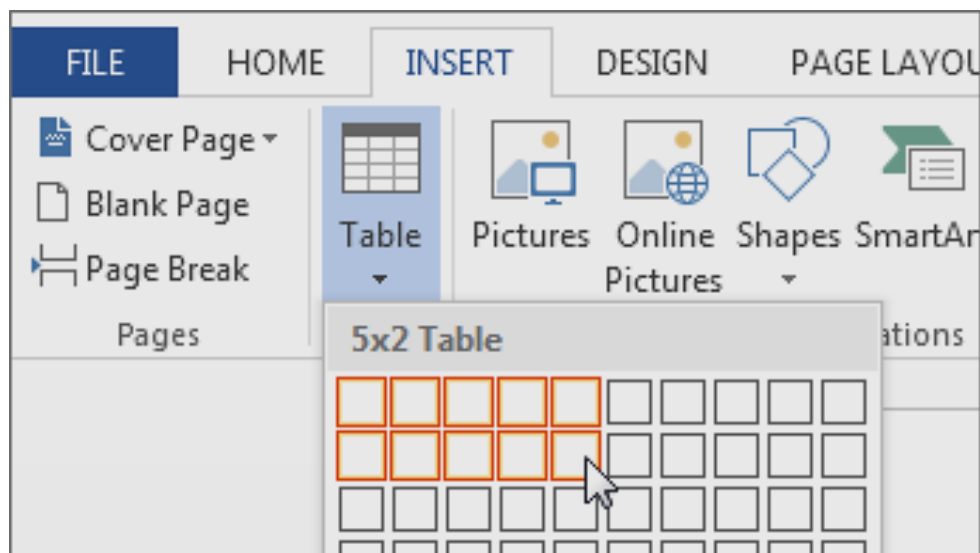

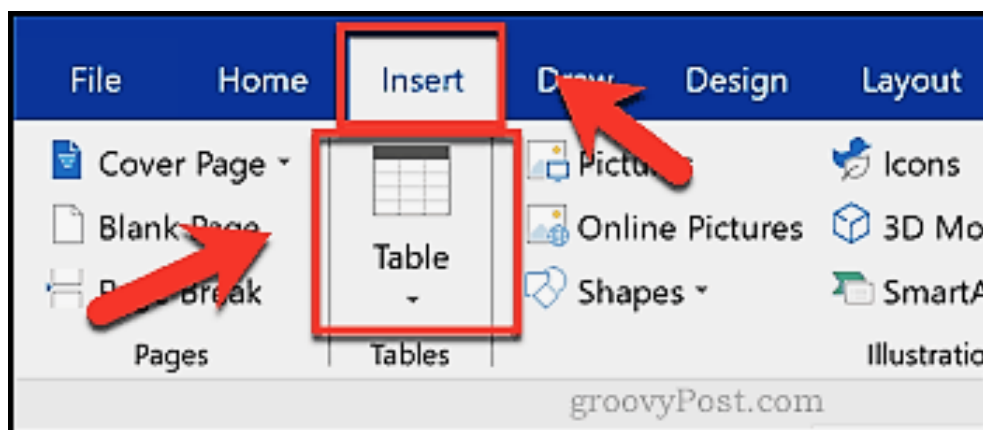

Keyboarding require that you acquire the necessary skills which can make you more efficient and effective.

Tables

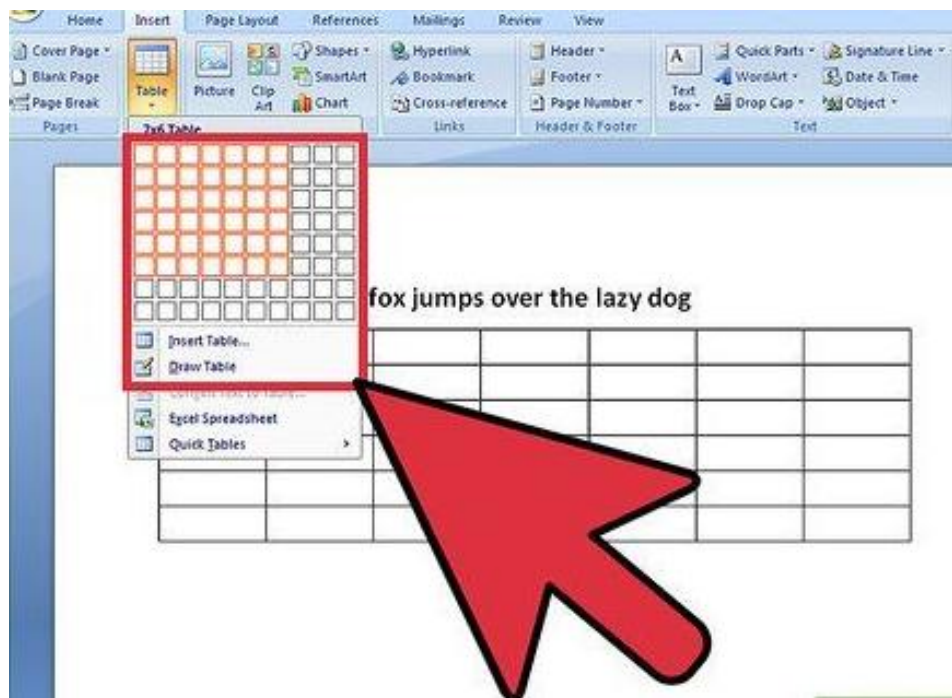

How do you insert a table such as the one below using Microsoft word?

S/N	NAME	AGE	GENDER
1	Nike	11	Female
2	Mike	12	Male
3	Steve	10	Male
4	Stephanie	9	Female
5	Vicky	9	Male
6	Rickie	10	female

Steps to follow:

1. count the number of rows and columns you need
2. choose the space where you want the table on the document by placing the cursor right there
3. use the mouse to click on insert table command, which can be found on the menu bar at the top of your screen
4. select the number of rows and columns from the options provided in table size
5. If you choose auto fit, the rows and column in the table will expand as you input data
6. If the fixed size is chosen, the cells cannot expand as you input letter.

Line-space regulator

a. Single line spacing:

This is achieved by pressing the Enter key once after each line

E.g. This is the day that the Lord has made;

We will rejoice and be glad in it

b. Double line spacing

This is achieved by pressing the Enter key twice after each line.

E.g. This is the day the Lord has made

We will rejoice and be glad in it.

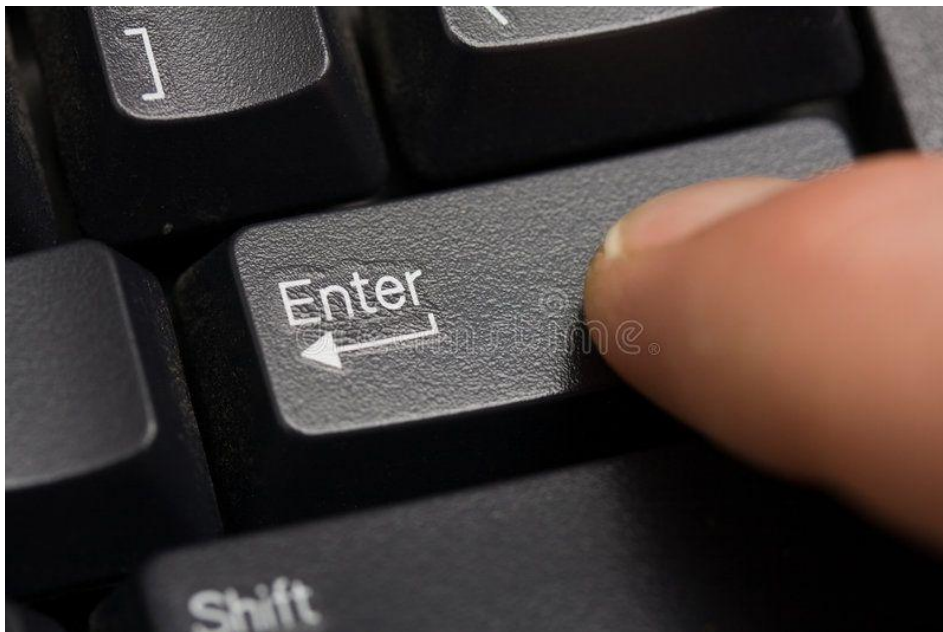

Steps to follow

Step 1: Use the Ctrl A to highlight the entire document

Step 2: Move the cursor to the format menu and choose paragraph

Step 3: Locate spacing and select the type of line-spacing you want; e.g. 1, 1.5, 2 etc.

Step 4: Select o.k.

The Enter key

This is also referred to as the Return key.

Uses of Enter key

1. The Enter key is pressed when you get to the end of a line or paragraph in order to start a new line or paragraph
2. The Enter key is also pressed to show acceptance of an option or a confirmation of a command.

ACTIVITY:

1. ____ helps to expand the rows and column (a) Expander (b) Auto fit (c) Line filler (d) Expand fit
2. ____ highlights the entire document (a) Ctrl H (b) Ctrl r (c) Ctrl C (d) Ctrl A
3. The paragraph is chosen at the ____ (a) format menu (b) page menu (c) Line filler menu (d) tool menu
4. The 'Enter' key is used to show ____ (a) confirmation (b) log matters (c) auto fill (d) entrance
5. The 'Enter' key is pressed twice to give ____ (a) extra line spacing (b) double line spacing (c) single line spacing (d) triple line spacing
6. What is single line spacing?
7. State two (2) uses of the enter key
8. What is the effect of Ctrl A?
9. What is the function of auto fit?
10. State two (2) effects of keyboarding techniques

Type the following passage below using double line spacing.

Christmas is a unique time of the year. It is a season when everybody irrespective of religion or culture, takes time off work to celebrate with friends and relatives. Gifts are shared and people make merry by eating, drinking and dancing. I wish every day could be Christmas!

CASE STUDY

Joy is a student learning how to use Microsoft Word in her ICT class. Her teacher asks her to type a class list showing the S/N, Names, Ages, and Genders of six students. Joy wants to arrange this information neatly using a table. She also wants each line of the text in her document to have space between them for easy reading. However, she is unsure how to insert the table, apply line spacing, and properly use the Enter key while typing.

As a friend, she turns to you for help.

Questions:

1. What steps should Joy follow to insert the table in her Microsoft Word document?
2. How many rows and columns will Joy need to create the table for the student list?
3. What is the difference between single line spacing and double line spacing?
4. Describe how Joy can change the line spacing of her document from single to double.
5. What are two uses of the Enter key when typing in Microsoft Word?
6. How can keyboard kinetics help someone become a better typist?

ASSIGNMENT:

1. State the difference between rows and columns.

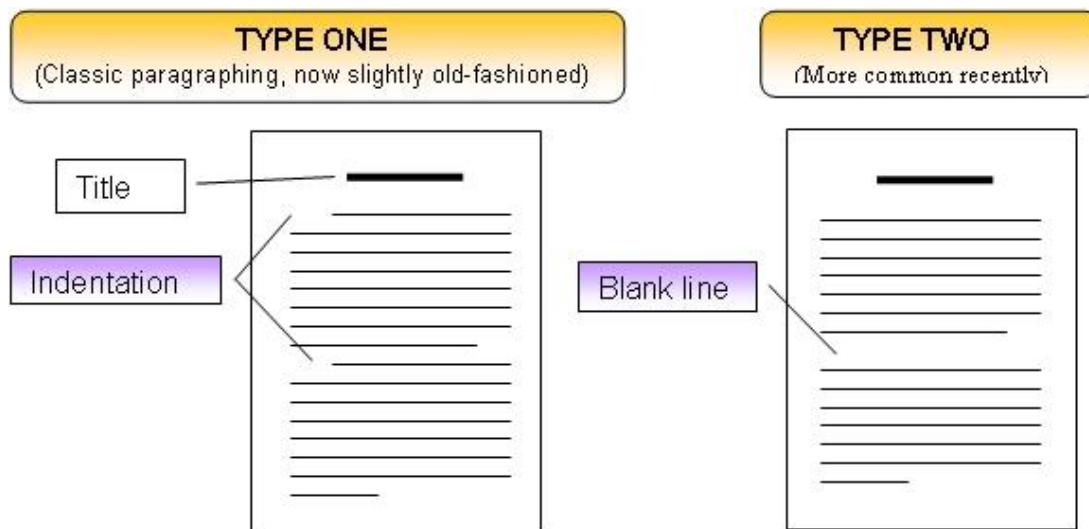

WEEK 4

PARAGRAPHING

Objective: *This week I will be able to:*

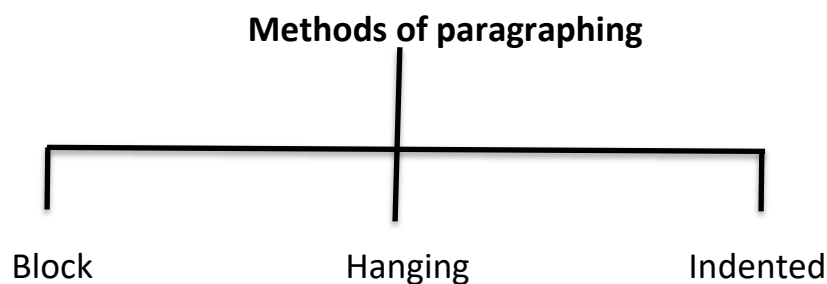

- *mention the different methods of paragraphing*
- *identify the methods of paragraphing*
- *demonstrate the use of different methods of paragraphing*

A paragraph is a clear division of a piece of writing. It focuses usually on a single subject matter and is separated from other parts of the writing by a new line or indentation.

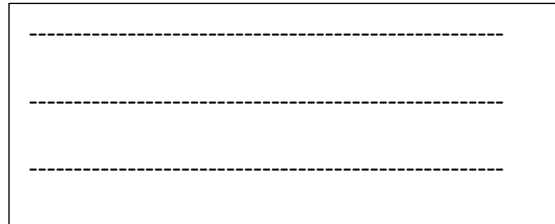

Methods of Paragraphing

This is shown in the diagram below:

Block Paragraph

This means that all the lines in the paragraph begin at the same point. Example,

A rectangular box containing three horizontal dashed lines, representing lines of text in a block paragraph. All three lines start at the same left margin.

Dear Mr Smith:

My former colleague Joan Brown informed me that you are seeking to hire an office manager. I worked with Ms Brown at Acme and have 10 years of experience as an administrative assistant. I have long admired XYZ Partnership and would be honoured to work for your company.

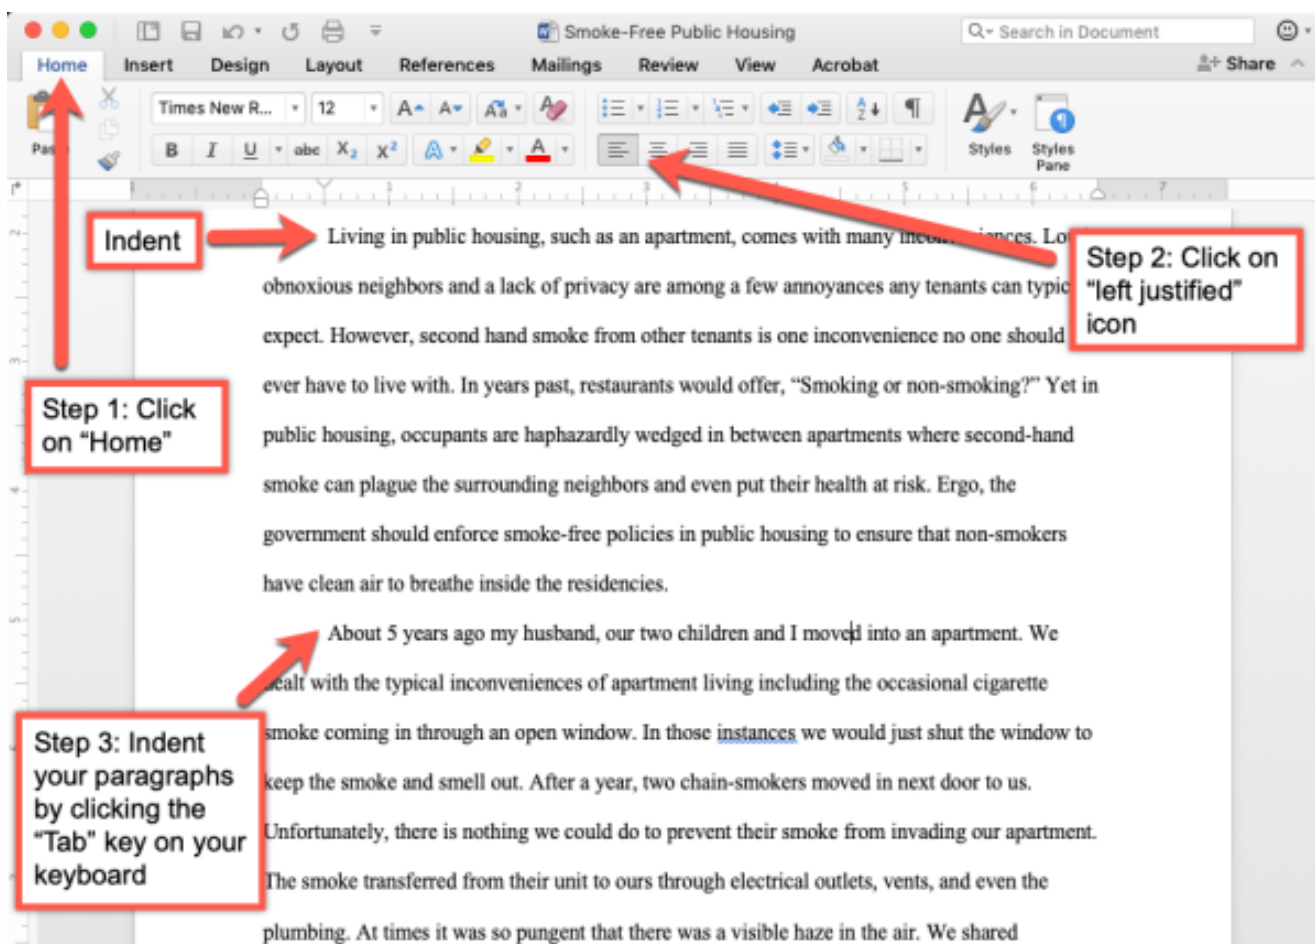

As you can see from my CV, I have performed many administrative duties in my previous positions at Acme and Ajax. At Ajax, I facilitated the company's transition from handwritten to digital records. That work paved the way for my move to Acme, where I assisted the director of innovation in tracking the development of new products. I helped introduce the company's workflow management system, which enabled Acme to cut the average development time of its software upgrades from 18 weeks to 12 weeks.

Indented Paragraph

To display your work using indented paragraphs, you must begin the first line of the paragraph five spaces (pica) or six spaces (elite) from the left margin. Example,

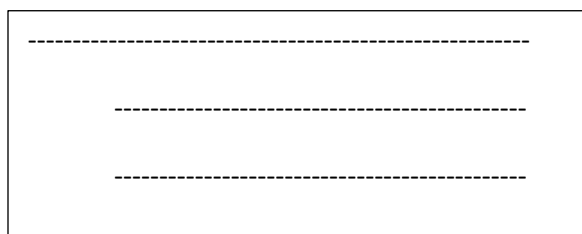

A rectangular box containing three horizontal dashed lines, representing lines of text in an indented paragraph. All three lines start at the same indented left margin.

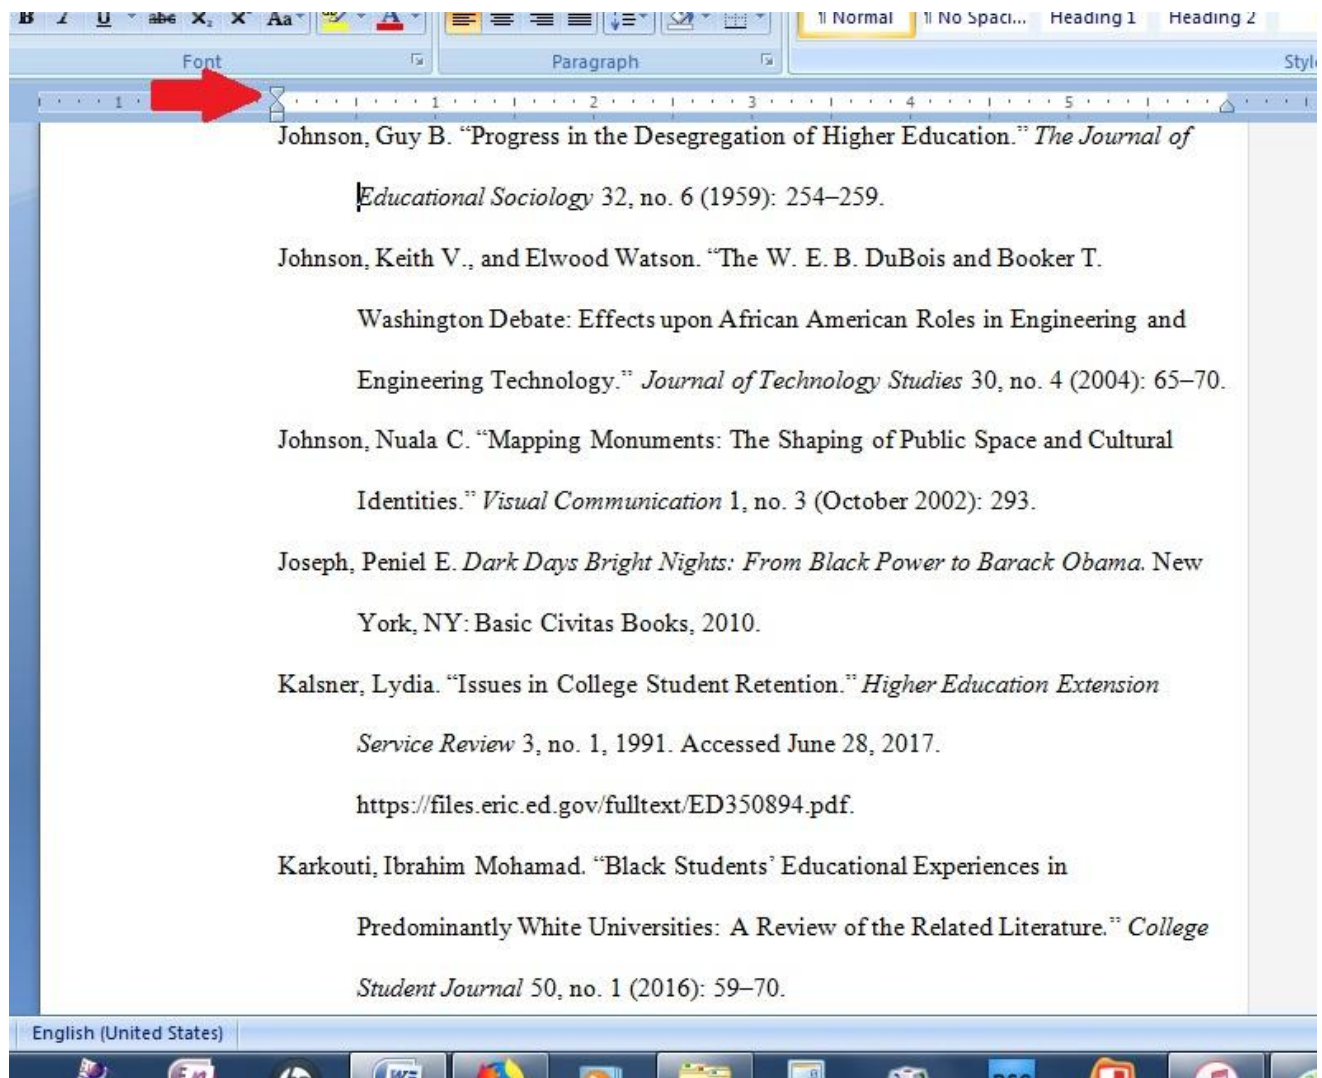

Hanging Paragraph

To display your work using hanging paragraphs, ensure that the first line starts two or more spaces to the left of all other lines.

On the Insert tab, the galleries include items that you can use to build your document. You can use these galleries to insert tables, pictures, and other document building blocks. They also coordinate with your current formatting of selected text in the document. For more information, see the Quick Styles gallery on the Home tab or the other controls on the Home tab.

EVALUATION

1. There are ____ methods of paragraphing (a) 3 (b) 4 (c) 1 (d) 2
2. ____ paragraph ensures that the first line starts two or more spaces to the left (a) Indented (b) Hanging (c) Blocking (d) Spacing
3. ____ paragraph leaves five or six spaces from the left (a) Indented (b) Hanging (c) Blocking (d) Spacing
4. ____ paragraph ensures that all the lines in the paragraph begins at the same point (a) Indented (b) Hanging (c) Blocking (d) Spacing
5. One of these is odd (a) Paging (b) Hanging (c) Blocking (d) Indented
6. Describe a paragraph

7. State the methods of paragraphing
8. State the difference between ‘Pica’ and ‘Elite’
9. State the difference between ‘Hanging paragraphing’ and ‘Indented paragraphing’
10. State one use of paragraphing

CASE STUDY

Chuka is preparing a class assignment that requires him to type a one-page essay using different methods of paragraphing. He wants to format each paragraph using a specific method: block, indented, and hanging paragraph. However, Chuka is confused about how each style should look and where the lines should start from.

His teacher insists that correct formatting is important and will form part of his overall score.

Questions:

1. What are the three methods of paragraphing that Chuka can use for his assignment?
2. Describe how each paragraphing method should be formatted in a document.
3. If Chuka chooses to use the indented paragraph style, how many spaces should he leave from the left margin before starting the first line?
4. In a hanging paragraph, which line starts further to the left—the first line or the remaining lines?
5. Why is it important for Chuka to format his paragraphs correctly when typing a document?

ASSIGNMENT:

Using double line spacing, type the following passage in:

- I. Block paragraphs
- II. Indented paragraphs.

The Nigerian Football Federation (NFF) has incited five foreign coaches for interview to select the most suitable manager for the Super Eagles. This has become necessary

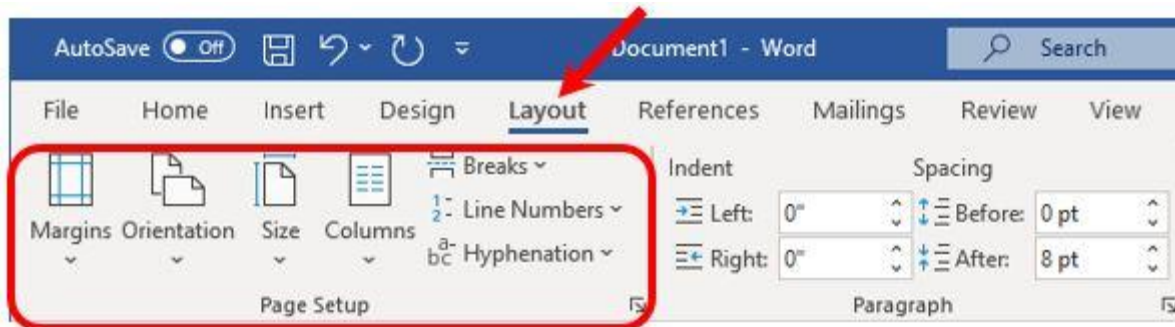

because Amodu Shuaibu, the former handler, has been relieved of his duty. He is now the handler of the home-based players

WEEK 5

PAGE SETTING

Objective: This week I will be able to:

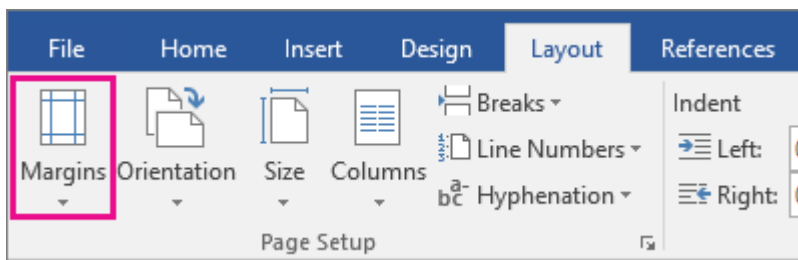

- demonstrate how to set up a new page.
- choose correct alignment.
- produce a document.

What are Margins?

A margin is a space separating text or other elements from the edge of the paper. It is commonly adjusted through the **page setup**. Margins are spaces allowed at the borders of a document to make the text more attractive and easier to understand. Margins can be set at the top, bottom, left side and right side of page.

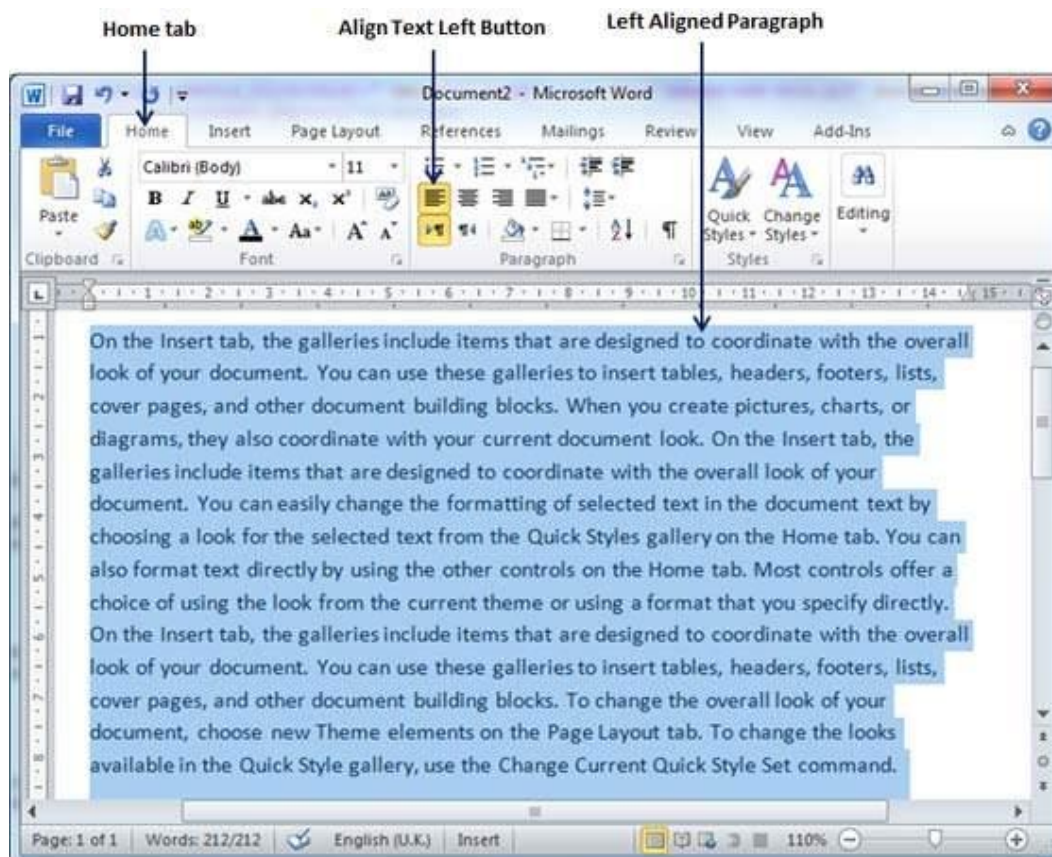

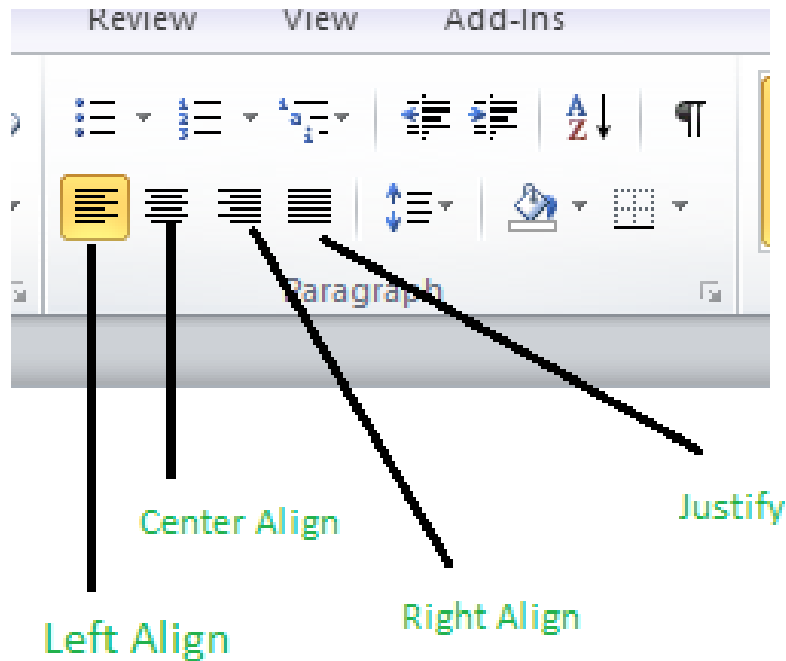

Page Alignment

Page alignment determines the appearance and the orientation of the edges of a paragraph.

Correct Page Alignment

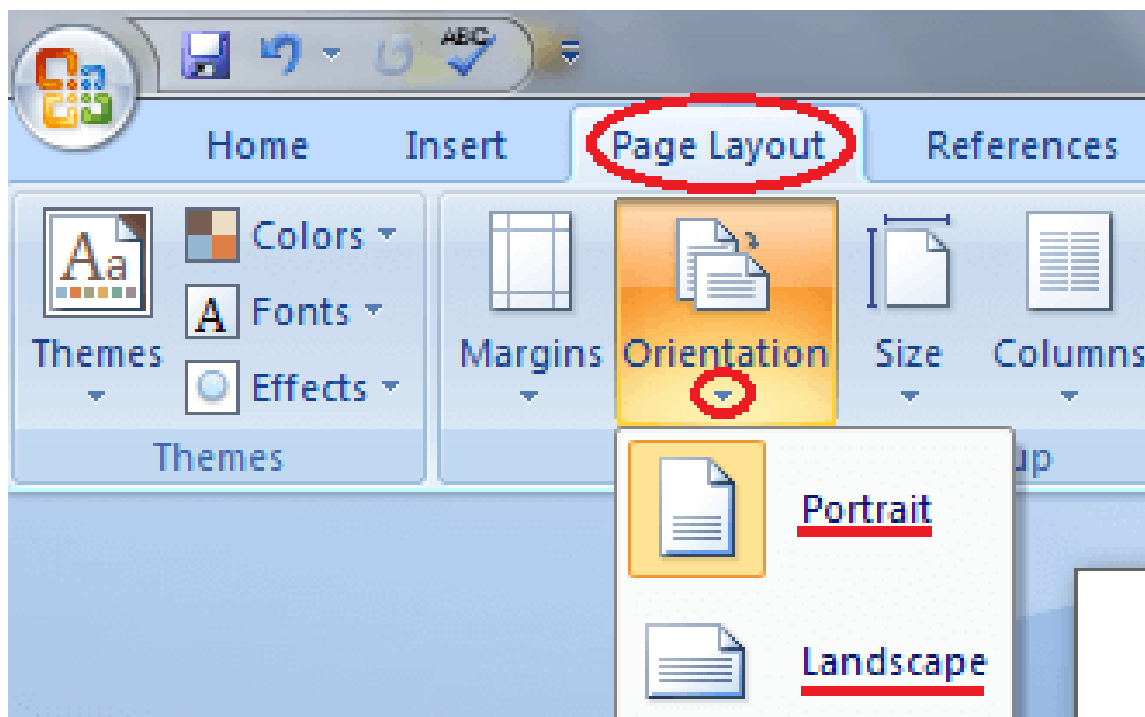

1. **Left Alignment:** To left align means to begin each line from the same point on the left margin.
2. **Right Alignment:** To right align means setting up your document such that words or letters end at the same point on the right margin.
3. **Centre Alignment:** To centre align means to present your document such that each line has some space on the right and on the left of the page.
4. **Justify:** When you justify a text, all the lines on a page or pages of the document will form a straight line on both the right and left sides.

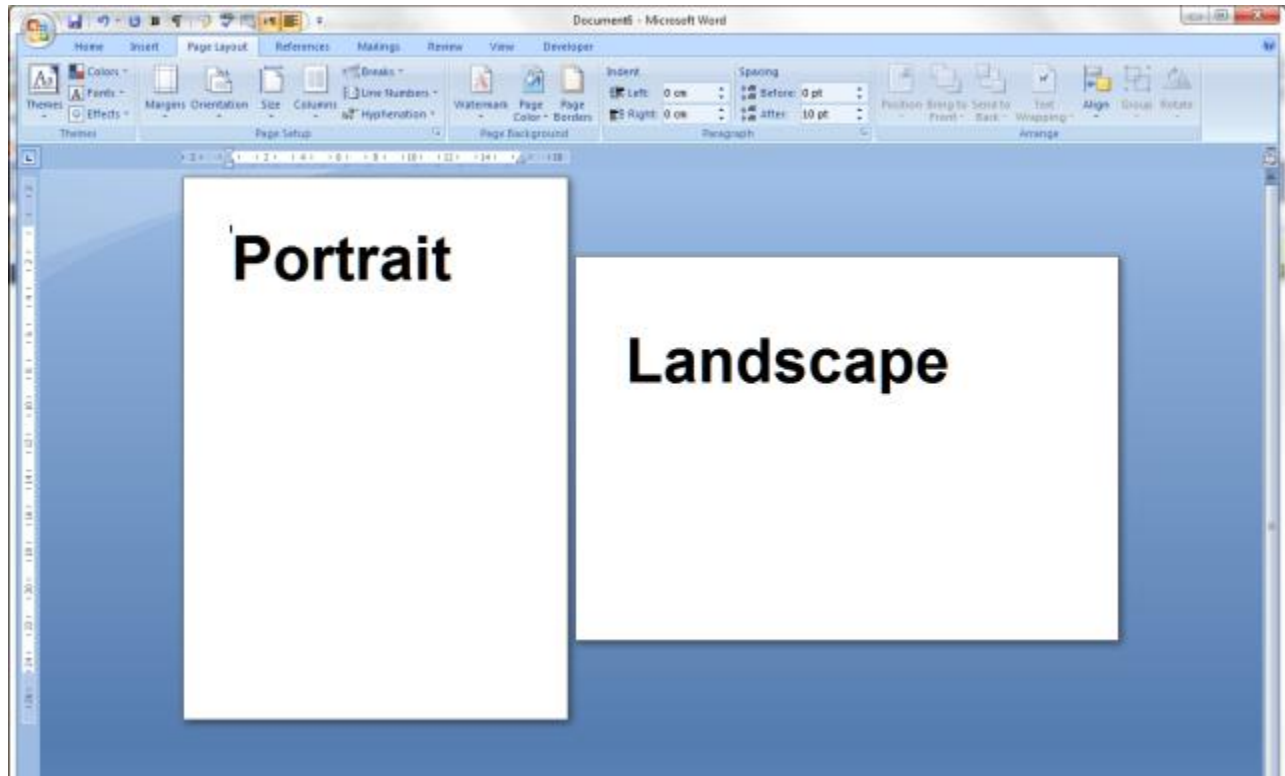

Page Orientation

The way your document appears after you have printed it on papers depends on the orientation you chose while inputting the text. Basically, there are two-page orientations, namely portrait and landscape.

How to change page orientation

1. Go to file menu at the top of the computer monitor
2. Select page set up
3. Choose the paper size tab
4. Choose the page orientation of your choice

ACTIVITY:

1. ____ begins each line from the same point on the left margin (a) Right alignment (b) Left alignment (c) Justify (d) Centre alignment
2. There are ____ orientation (a) two-pages (b) four-pages (c) one-page (d) three-page
3. One of these is odd (a) file menu (b) line set up (c) page set up (d) paper size tab
4. ____ ends words or letters at the same point on the right margin (a) Right alignment (b) Left alignment (c) Justify (d) Centre alignment

5. ____ ensures alignment on both right and left sides (a) Right alignment (b) Left alignment (c) Justify (d) Centre alignment
6. State the steps on how to change page orientation
7. State the difference between right and left alignment
8. What is a margin
9. Describe page orientation
10. State two reasons for margin

CASE STUDY

Sarah is working on a school project that requires her to type a two-page document in Microsoft Word. Her teacher has given her specific formatting instructions:

- The document must have 1-inch margins on all sides
- The title of the project should be center-aligned
- The body of the text must be justified for a clean look
- She must print the document in landscape orientation

Sarah has typed out her content, but she's unsure how to set margins, align text correctly, and change the page orientation.

Questions:

1. Define what a margin is and explain why it's important in a document.
2. Describe the difference between left, right, center, and justify page alignments.
3. What steps should Sarah follow to change her document's page orientation to landscape?
4. Why might a teacher prefer a justified alignment for the body of a project?
5. If Sarah accidentally uses portrait orientation, how might that affect the printed layout of her project?

ASSIGNMENT:

1. State steps required to set margins
2. List the steps to follow to align your document

WEEK 6 MEMORANDUM

Objective: *This week I will be able to:*

1. state what a memorandum is;
2. list the features of a memorandum
3. produce a memorandum

What is a Memorandum?

A memorandum (also called a memo) is the primary correspondence document used within an organization. It is a written message exchanged by people who work in the same organization.

Parts of a Memorandum

1. The heading which consists of your distribution list, who it is from, the date and subject;

To: Name and position of the reader

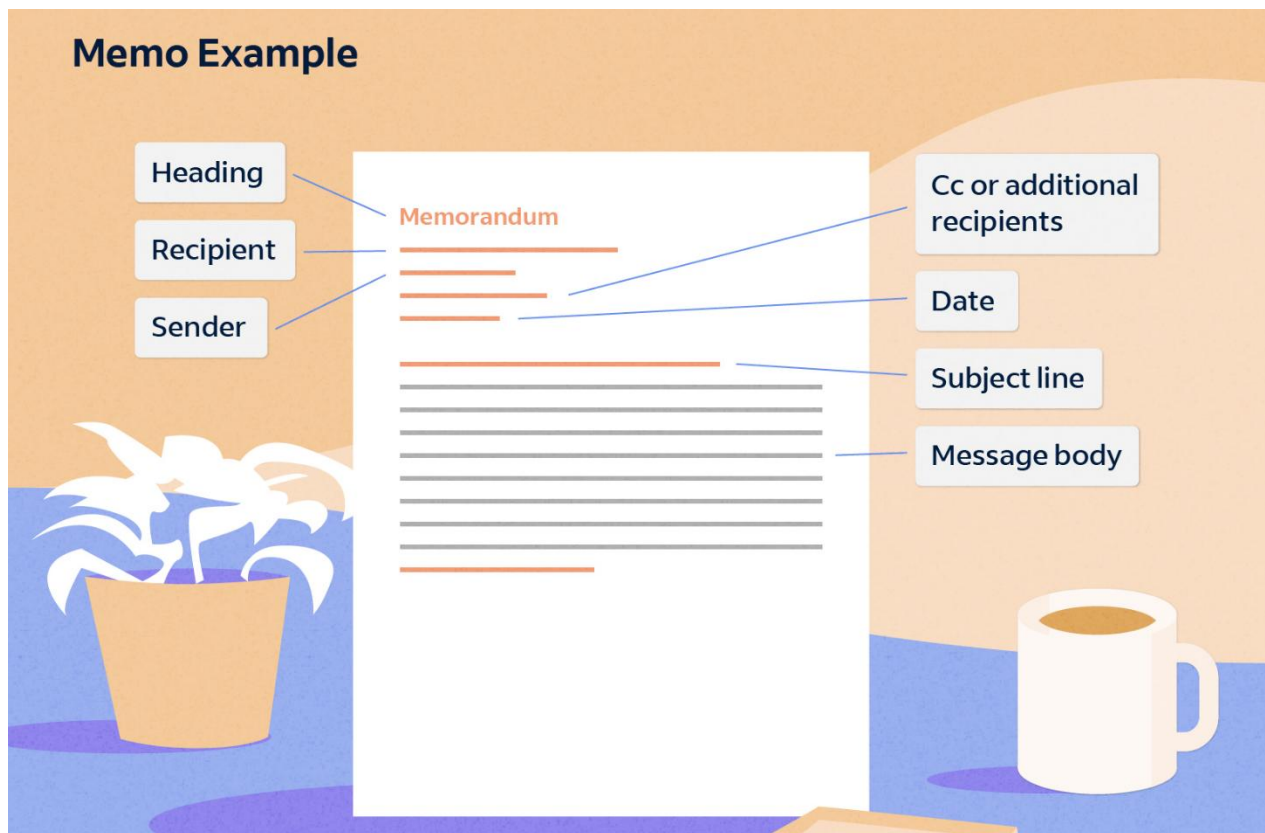

From: Name and position of the writer

Date: Date the memo is sent

Subject: A phrase that focusses the reader's attention on the subject for the memo.

2. The body of the memo or text;
3. The reference initials; and
4. Notations- if necessary

Unlike letters, memos have no salutation or complementary close. A memorandum can be short or long depending on the message involved.

Example of a standard memo form;

Memorandum	
To:	Date:
From:	
Subject:	
.....	
.....	

ACTIVITY:

1. Memos have salutation (a) True (b) False (c) May be (d) Probably
2. Memos are used to communicate with people outside an organisation (a) True (b) False (c) May be (d) Probably
3. The content of memos are always long (a) True (b) False (c) May be (d) Probably
4. Notations are necessary (a) True (b) False (c) May be (d) Probably
5. A memo is a written message exchanged by people who work in different organizations (a) True (b) False (c) May be (d) Probably
6. Describe a memo
7. State four (4) parts of memo
8. The content of a memo can be long or short. Justify this statement
9. What is the primary correspondence document within an organisation?
10. Draw a sample of a standard memo form

CASE STUDY

You are the secretary of Unity High School, and the school principal, Mrs. Aisha Bello, has asked you to write a memo to all teaching staff reminding them about the upcoming staff meeting scheduled for Monday, 22nd April 2025, at 10:00 a.m. in the school hall.

Mrs. Bello has also mentioned that the meeting will cover important topics such as student discipline, curriculum updates, and teacher evaluations. You are to send this memo today, 17th April 2025.

Questions:

1. Using the information above, draft a complete memorandum, ensuring all the correct parts are included.
2. What are the key components of a memorandum, and how does it differ from a letter?
3. Why is a memo considered a suitable form of communication within an organization like a school?
4. Identify two reasons why the subject line in a memo is important.
5. If a memo has no salutation or complementary close, what helps maintain professionalism in the tone of the message?

ASSIGNMENT:

1. In a tabular form, list five differences between a Memorandum and a Letter

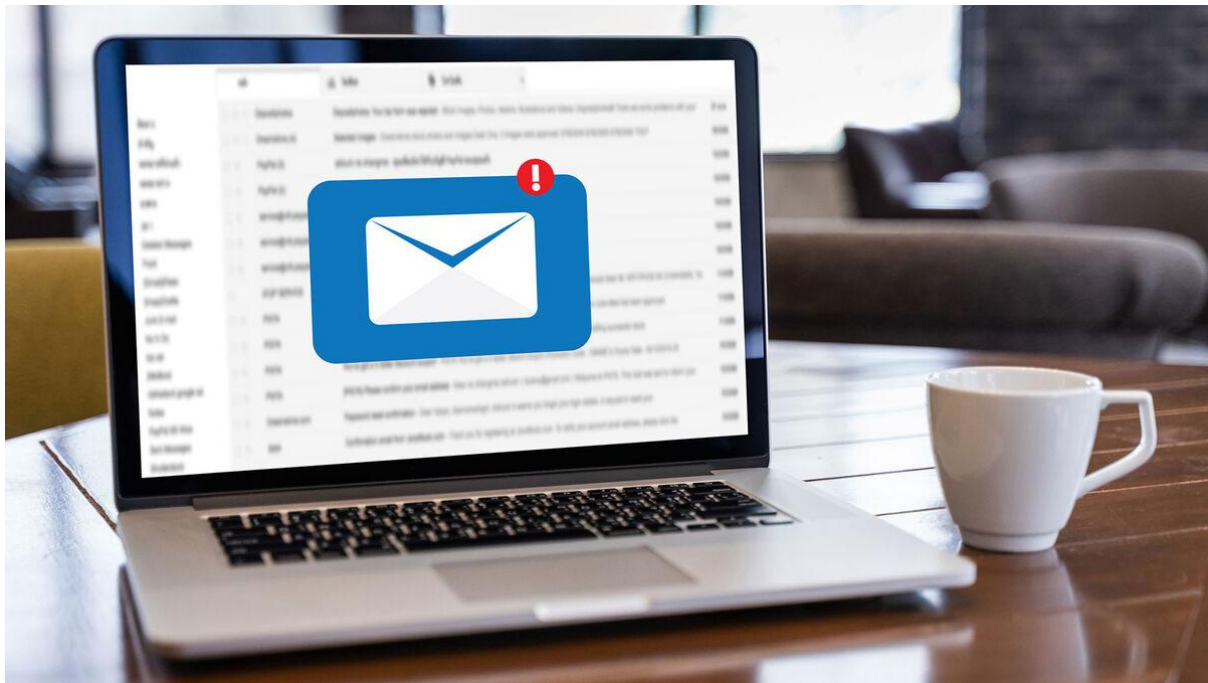

WEEK 7

E-MAIL

OBJECTIVE: *By the end of this week, I will be able to:*

1. define the term e-mail;
2. mention the features of an e-mail
3. type and send e-mail to various e-mail addresses

An e-mail is simply the short form of electronic mail, a system for receiving, sending and storing electronic messages. It is a medium through which you can exchange instant messages with other people all over the world.

Parts of an E-mail

From: The sender's e-mail address

To: The receiver's e-mail address

Cc: Indicates other receiver's e-mail address (other people that will receive the message)

Subject: A phrase that focuses the reader's attention on the subject of the email.

The following are steps to send an e-mail:

- Step 1 Click on the start menu
- Step 2 Select the internet
- Step 3 Type the address; e.g. www.gmail.com
- Step 4 A page opens where you can input your e-mail address and password
- Step 5 If you have correctly entered your details, you will see the main page showing inbox, sent files, outbox, trash, spam etc.
- Step 6 You can click on 'compose' in order to input a new message
- Step 7 When you are done inputting your message, click on send. You should expect to see '**message sent**'.

ACTIVITY:

1. Which of these is odd? (a) Gmail (b) Hotmail (c) New-mail (d) Yahoo

2. Email means ____ (a) empowered mail (b) eternal mail (c) electronic mail (d) emergency mail
3. ____ is seen when a mail goes through (a) Message sent (b) Message roaming (c) Message intact (d) Message rendered
4. Click ____ in order to input your message (a) type (b) compose (c) carve (d) create
5. Your details contain your ____ and ____ (a) email address, route (b) yahoo mail, password (c) password, address (d) email address, password
6. Describe an email
7. State four mediums that allows exchange of messages via the internet
8. State three parts of an email
9. What does 'Cc' signifies?
10. What does 'Subject' mean?

Open the internet page on your computer and type in this address www.yahoo.com. Sign in by entering your username and password; then keyboard a new message to your subject teacher and send the message to her e-mail address

CASE STUDY

You are a student in JSS 3 at Golden Future College, and your class teacher, Mr. Adewale, has asked each student to send him an e-mail as part of a computer studies assignment. In the e-mail, you are to:

- Greet the teacher politely
- Inform him that you have completed your practical keyboarding assignment
- Attach a photo of your work (assume the file is named keyboard_practice.jpg)

- Send a copy of the e-mail to your class prefect, Titi Adepoju
- Use a proper subject line like "Keyboarding Assignment Submission".

Questions:

1. Using the scenario above, identify what you would write in each of the following parts of the e-mail:

From:

To:

Cc:

Subject:

2. List the steps you would follow to send the e-mail as described above.

3. Explain what the "Cc" field is used for in an e-mail and why it is important in this scenario.

4. If you typed the wrong e-mail address and sent your assignment to the wrong person, what two steps should you take immediately?

5. What are two advantages of using e-mail to send assignments instead of printing them on paper?

ASSIGNMENT:

Send this message via email to your class teacher:

Subject: Class Assignment on description of Alpha Choice Innovative Academy, Arepo

Date: Day the assignment is given

Message: Give a short description of Alpha Choice Innovative Academy

E-mail address: olawaleogedengbe@gmail.com

WEEK 8

OFFICE PROCEDURE

OBJECTIVE: *By the end of this week, I will be able to:*

1. explain the meaning of office procedure
2. list the importance of office procedure
3. state and explain the procedures for making payment
4. state the procedures for making payments by cash, cheques and bank drafts.

Meaning of Office Procedure

There is no one definition of what office procedure means; however, every office has its own set of rules or a system of running its affairs.

An office procedure can be defined as the sequence in which certain operations are carried out in respect of what is done., how it is done, who does it, when and where it is done in an organisation.

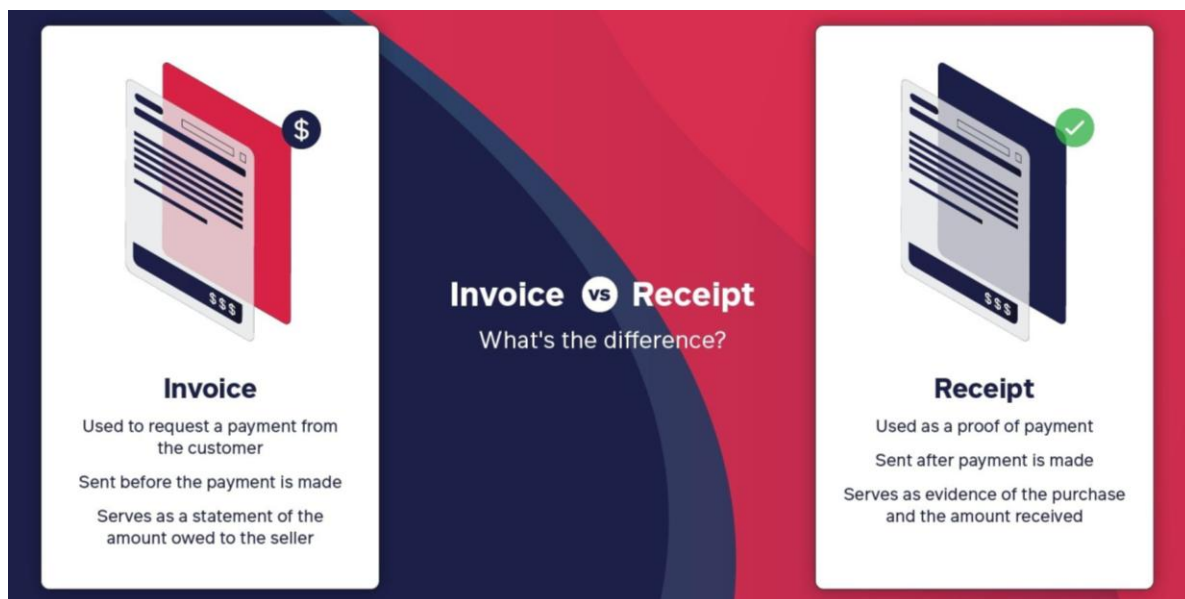

Importance of Office Procedure

1. It helps in the smooth running of the office, reduces delays and solves problems in the system
2. It helps work to be done faster
3. It helps to minimize and prevent fraud
4. It helps in the overall coordination of the various sections of the organization
5. It helps to reduce errors in the performance of duties.
6. It reduces general cost of operations.

Procedures for Making Payments, Preparing Bills and Invoices

Once an order is received, it immediately goes to the sales office personnel who records the date, fills in missing details, makes adjustments and complete calculations. When all vital facts are assembled, a customer's bill or invoice is made out.

Bills:

A bill is a document issued by the person who renders service to cover the cost services provided to his customers. E.g. schools issue out bills to their students to show the amount of what they owe.

Invoices:

These are documents raised in respect of buying and selling of goods. The seller usually raises an invoice which he sends to the buyer of his goods.

Receipts:

A receipt is a document issued to the buyer by the seller because of money paid for goods bought.

There are many procedures used in speeding up the preparation of bills and invoices. These include:

1. The Computer
2. The Typewriter
3. **The typewriter-Calculator Combination:** While the regular typewriter takes care of the language part of the billing operation, the billing clerk maybe delayed in the calculations, unless it is done in another machine. The typewriter-calculator device was created for this purpose.
4. **The Cash Register Adaptation:** The cash register is essentially an adding machine with a cash drawer. It prints the figures on a sales slip instead of punching a tape.
5. **The Photocopying Technique:** Many small offices such as those pharmacists and doctors prepare monthly bills and statements of accounts simply by making a photocopy of the client's or customer's account card.

Procedures for Making Payments

- A. **Cash**: Naira and kobo are usually accepted as payment for goods. People offer cash to settle bills for goods and services such as books, newspapers, food items, etc.
- B. **Cheque**: A cheque is a written order to a bank to pay on demand a stated sum of money to the name stated on the cheque. A cheque can be open or crossed cheque. It is open when it can be cashed over the counter at the bank. It is crossed with two parallel lines drawn across the payee's name. It cannot be cashed over the counter.
- C. **Automated Teller Machine (ATM)**: Cash can be withdrawn at any time of the day using an ATM card.

Advantages of Using an ATM

- 1. Using an ATM is faster than going into the bank to withdraw cash.
- 2. ATMs have reduced the risks associated with carrying large amounts of cash to transact business.
- 3. ATM can be used after banking hours and at any time of the day.
- 4. ATM has reduced the cost of operation of banks and increased their profitability.

Disadvantages of Using an ATM

- 1. ATM service is yet to reach most rural parts of Nigeria
- 2. Those who are illiterate may not be able to use an ATM card or machine.
- 3. The amount of money that can be withdrawn from an ATM machine is limited.
- 4. ATM has led to a reduction in workforce in the banking profession.

- D. **Point of Sale (POS) Machine:** This is another modern-day device that helps customers carry out payments and other financial transactions at the point of sale.

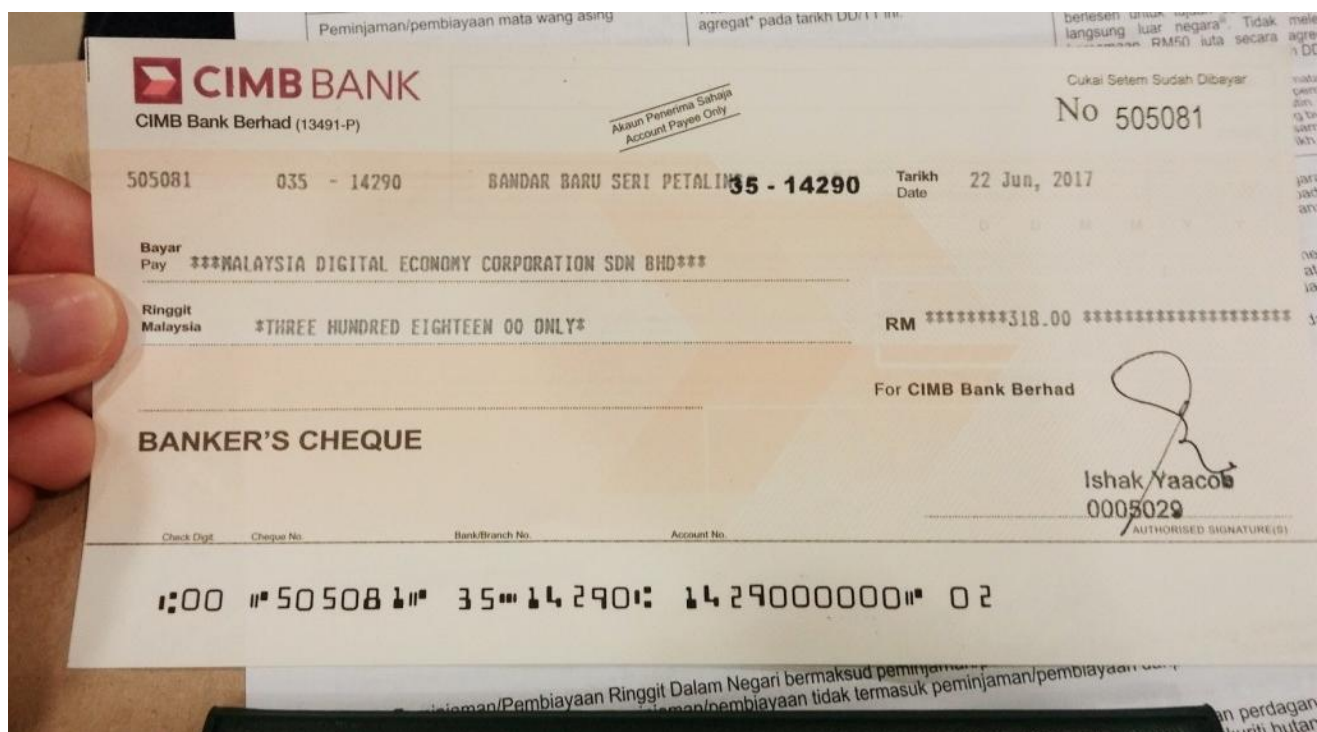

Advantages of a POS Machine

1. It eliminates the possibility of cash theft and fake currency.
2. It can be accessed at any time of the day.
3. It makes it easier to track sales

Disadvantages of POS Machine

1. It encourages spontaneous buying by the cardholder.
2. Because a POS machine relies heavily on technology, it can bring a business to a standstill when it breaks down.
3. It takes a little more time to complete a transaction than when paying by cash.
4. It requires some training to operate a POS machine.

- E. **Bank Draft:** A bank draft is like a cheque drawn by the bank on itself. Since it is a cheque the bank draws on itself, it is automatically paid when presented at the bank.
- F. **Bank Transfer:** This is another bank instrument which money is transferred from one person to another through the bank.

Imprest Account

A petty cash as we know, records small items of business expenses. The original amount given to the petty cashier is called is called an imprest or float. This method of keeping petty cash is known as an imprest system.

Preparation and Issuance of Receipts

A receipt is a business document issued to the buyer by the seller in respect of a sum of money paid. It is a legal proof of payment. There are some points to bear in mind when completing or preparing a receipt:

1. Write out the receipt carefully as you would a cheque.
2. Be careful to record the date, the amount and identification accurately and legibly.
3. Use a pen because it is less likely to fade and much difficult to alter.
4. Make a carbon copy of the receipt and check to see that all information written in words and figures and the reason for the payment have all been recorded

ACTIVITY:

1. Office procedure makes office activities ____ (a) boring (b) rough (c) smooth (d) cumbersome
2. ____ is like a cheque drawn by the bank on itself (a) bank draft (b) bank issuance (c) bank note (d) cash
3. One of these is odd (a) Cash register (b) Cash transfer (c) Computer (d) Type writer
4. ____ has to do with record of small transactions. (a) Meagre record (b) Straight account (c) Imprest account (d) Small recordings
5. ____ is issued for cash paid. (a) Statement (b) Bill (c) Receipt (d) Invoice
6. Differentiate between ATM and POS
7. Differentiate between bill and receipt
8. What is bank transfer
9. Describe office procedure

10. State two (2) importance of office procedure

1. Explain the meaning of office procedure
2. List the importance of office procedure
3. State and explain the procedures for making payment

CASE STUDY

You are the office assistant at Bright Path Bookstore, and your manager asks you to handle a few important office procedures. A customer, Mrs. Eze, just bought school supplies worth ₦15,000. She decides to pay using a POS machine, and she requests an invoice and a receipt for the transaction. Meanwhile, another customer, Mr. Musa, places an order for a set of books that will be delivered next week. You're expected to prepare his bill ahead of delivery. The manager also asks you to record all payments made into the petty cash book, which follows the imprest system.

Questions:

1. Based on the scenario, list three office procedures you will need to follow to handle these tasks properly.
2. What is the difference between an invoice, a bill, and a receipt in this context?
3. What are two advantages and two disadvantages of using a POS machine, as seen in Mrs. Eze's transaction?
4. Describe the steps you would take to issue a receipt to Mrs. Eze correctly.
5. Explain what an imprest account is and why it is useful in managing petty cash.
6. Identify and briefly explain two modern payment methods used in the scenario above.

ASSIGNMENT:

1. List five organisations that issue bills to their customers
2. Mention five information contain in the following document:
 - a. Bills
 - b. Invoices
 - c. Receipts

WEEK 9

OFFICE EQUIPMENT

OBJECTIVE: By the end of this week, I will be able to

- Explain the term office equipment
- Enumerate the types of office equipment and machine
- Explain the importance of office equipment
- List the uses of office equipment and machine
- Care of office equipment and machine

Office equipment consists of the tools, machines and furniture needed to perform the jobs in an office. It enables the office to function properly. Office equipment are designed to;

1. make it quicker to produce business documents
2. minimize errors either in mathematical calculations or preparation of business documents
3. make it easier to preserve documents
4. makes it easier to retrieve documents.

Barcode Printer

Barcode Scanner

Labeling Machines

Projector

Price Labelling

Impulse Sealer

Checkwriter

Comb Binding

Time Recorder

Laminating Film

Laminator

Shredder Machine

Calculator

Safety Box

finger print

Types of Office Equipment

1. Paper cutting machine
2. Perforator
3. Stapler
4. Office pins
5. Office clips
6. In tray/out tray
7. Drawing pin
8. Sellotape
9. Gum
10. Ruler
11. Pencil
12. Stamp rack
13. Stamp pad/ink pad
14. Eraser
15. Call bell
16. Radio transmitter
17. Intercom
18. Telephone
19. Mobile phone

Importance of Office Equipment

1. They help to improve the quality of work.
2. They improve speed or performance of work
3. They are more accurate
4. They save time and labour
5. They improve the uniformity and appearance of printed materials.

Uses of Office Equipment

1. **Folding Machine:** This machine folds paper and puts them in desired envelopes.
2. **Paper cutting machine:** This machine cuts paper into desired shapes and sizes
3. **Stamping affixing machine:** this machine is affixes postage stamps to an envelope or postcard
4. **Collating Machine:** It is used to collect and arrange sheets of paper into a single organized stack.
5. **Paper Knife:** It is used for opening envelopes.

Types of Office Machines

1. Typewriter
2. Duplicating machine
3. Photocopier
4. Calculating machine
5. Stapling machine
6. Perforator
7. Computer
8. Scanner
9. Laminating machine

Disadvantages of Office Equipment

1. They are expensive to purchase
2. Their spare parts may not be readily available
3. Even if they are available, there may not be capable people to operate them
4. They require regular servicing
5. They are expensive to maintain

SCANNING MACHINE

COFFEE MACHINE

FAX MACHINE

TYPEWRITER

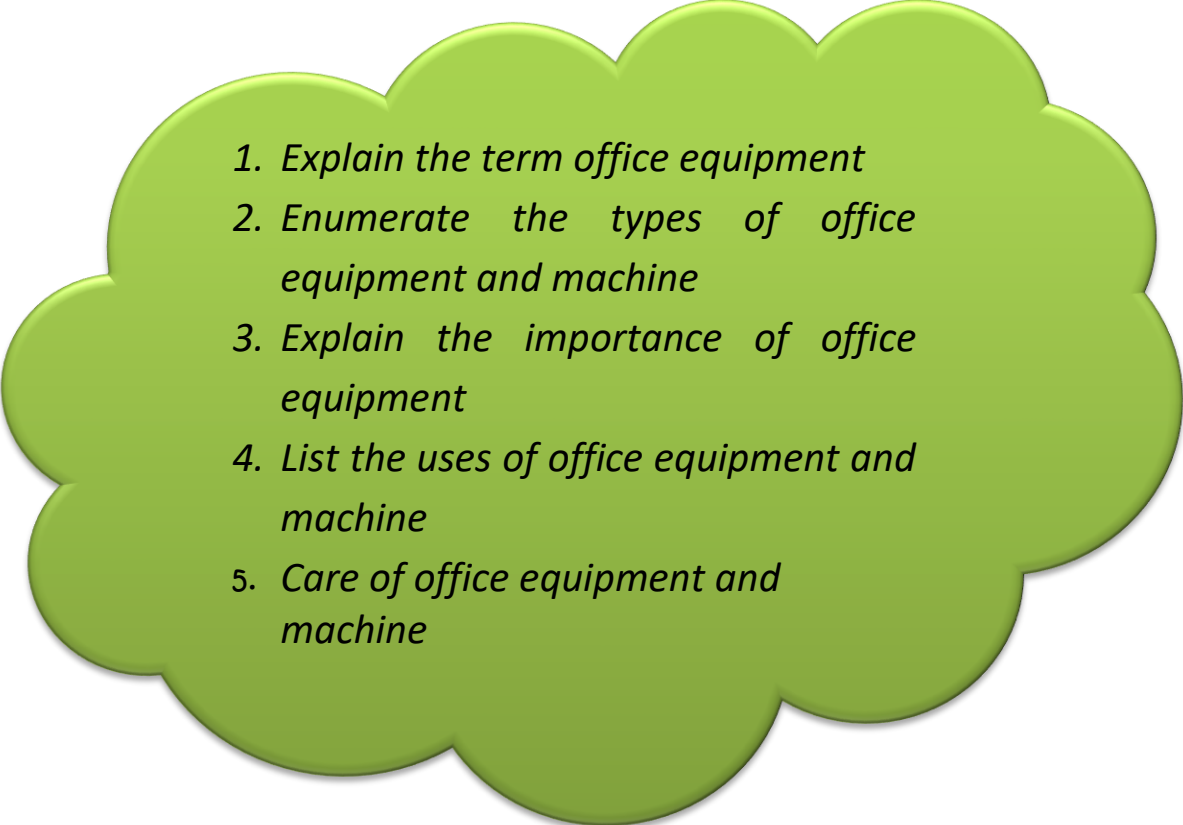

Care of Office Equipment

1. Perform regular maintenance checks office equipment to keep them working well and detect problems on time.
2. Employees should be trained on the correct use of office equipment to avoid poor handling.
3. Employees should follow appropriate guideline and user's manual.
4. Keep computers in a dry, clean and cool environment.
5. Do not overfill paper tray.

ACTIVITY:

1. Which of these is odd (a) Scanner (b) Typewriter (c) Fax machine (d) Gas cooker
2. Employees should ____ appropriate guideline (a) tried (b) followed (c) transfer (d) ignored
3. One of these is not advantage of office equipment (a) They make work accurate (b) They make work easier (c) They are not expensive (d) They make work fast
4. ____ is used for opening envelopes (a) cutter (b) blade (c) opener (d) paper knife
5. ____ cuts papers into desired shapes and size (a) Cutter (b) Paper sizer (c) Paper cutting machine (d) Paper knife
6. State two importance of office equipments
7. State two (2) uses of office equipments

8. Describe office equipments
9. State two (2) disadvantages of office equipments
10. State the uses of collating machine

- 
1. *Explain the term office equipment*
 2. *Enumerate the types of office equipment and machine*
 3. *Explain the importance of office equipment*
 4. *List the uses of office equipment and machine*
 5. *Care of office equipment and machine*

CASE STUDY

You work as an administrative assistant at CityLink Enterprises. The office has just been supplied with a new photocopier, a paper cutting machine, and a collating machine to help improve the speed and efficiency of document preparation. Your supervisor, Mrs. Adeleke, assigns you to prepare 200 copies of a company handbook. Each copy needs to be printed, collated, trimmed to size, and finally stapled. She also reminds you to use the in tray/out tray system to organize incoming and outgoing documents, and to keep the machines in good working condition.

During the process, the paper cutting machine blade becomes blunt, and you realize that no one in the office knows how to use the collating machine properly.

Questions:

1. List four office equipment mentioned in the scenario and explain their functions.
2. Identify and explain three advantages of using office equipment in carrying out the task.
3. What two challenges did you face in the scenario, and what solutions would you recommend?
4. Describe three ways you can care for the office machines you used to avoid future breakdowns.
5. What is the importance of using the in tray/out tray system in the office workflow?
6. State two disadvantages of office equipment that were evident or could arise from this scenario.

ASSIGNMENT:

1. List 5 office equipment you know and state their uses
2. List two ways that we can care for office equipment
